## DESTROY WHOLE CITY TO PRODUCE SAMSON

For those who are interested in vis-  
ualizing the lessons of their youth, as  
well as in seeing one of the most enter-  
taining shows ever played in Phoenix,  
"Samson" shown at the Lion Theater,  
Wednesday and Thursday, combines  
everything which both young and old  
could desire for entertainment. When  
"Samson" was first produced it was  
the subject of so much discussion that  
many of the pastors of New York re-  
quested to see it. They pronounced the  
film a marvelous piece of realism. It  
was put on at an enormous cost, for  
a whole city had to be constructed,  
a magnificent temple built only to be  
destroyed for one moment's fleeting  
thrill, and an army of two thousand  
actors had to be fitted out with cos-  
tumes, weapons, chariots and other  
things which have not kept in stock by  
the department stores. After the ex-  
penses of four months' work had been  
compiled it was discovered that there  
was not enough left of a \$100,000 bill to  
buy a chariot wheel. But the direc-  
tors were satisfied with the production.  
It is one of the most extensive, ever  
staged, but the effects demanded the  
expenditure of money and the Univers-  
al regards it as a first-class invest-  
ment.

The production of "Samson" will be  
of interest to man, woman and child,  
as the story follows the account in the  
book of Judges, with remarkable ac-  
curacy. Samson will be shown at the  
Lion theater tomorrow and Thursday.

**SANTA FE MEN HERE**—J. J.  
Byrne, assistant passenger traffic  
manager; Robert Dunlap, chief coun-  
sel; James Peabody, statistician; E. W.  
Camp, solicitor; C. M. Harris, rate ex-  
pert, and W. A. Drake, general man-  
ager, S. F. P. & P. lines are among the  
Santa Fe men here to attend the three-  
cent fare hearing before the corpora-  
tion commission Tuesday.

**LOST HIS WATCH**—James C. Gib-  
son left his watch in the wash room of  
a downtown pool room last evening. A  
few minutes later he discovered its ab-  
sence and returned. The watch was  
gone. He reported the loss to the po-  
lice and offered a reward of twenty  
dollars for its return. It is a gold  
watch, Howard movement, engraved in-  
side with "1909, J. C. Gibson." and to  
it was attached a gold nugget chain  
and a fob representing a pick and  
shovel with a small diamond setting.

**OVERHEAD LINE HEARING**—The  
hearing relative to overhead line con-  
struction came before the corporation  
commission yesterday. Among those  
present for the hearing were: W. S. St-  
anton, representing the Globe Light &  
Power company; Frank E. Russell,  
manager of the Tucson Gas, Electric  
Light & Power company; Samuel De  
Corse, of the Yuma Light & Power  
company; J. E. McDonald, of the joint  
pole committee of southern California;  
Frank Plotner, of the Western Union  
Telegraph company of Los Angeles; T.  
C. Robertson, chief engineer of the  
United Verde, representing the Upper  
Verde Utility company; and J. E.  
Garnett, division plant engineer, and  
Dean D. Clark, division commercial su-  
perintendent of the Mountain States  
Telephone company of El Paso.

**HEAVY HARDWARE**—Eleven  
pounds is some weight for the ordinary  
baby boy, but it isn't surprising that  
the young man who arrived at the  
home of Roy McCarthy, 1922 West  
Washington street, yesterday weighed  
that much for the father of the husky  
Irish lad, is manager of the hardware  
department of the Talbot &  
Hubbard hardware store. He is  
stamped all over the youngster's face  
and the neighbors say, he resembles  
his father. This resemblance isn't  
worrying the mother who is satisfied  
that the boy is healthy. Mother Mc-  
Carthy won't be allowed on duty today  
for Talbot & Hubbard say he's so ex-  
cited he would be just as liable to pass  
a gang plow or a gasoline engine  
as anything else. If he were to wait on  
a customer looking for grindstone, out-  
side of that everything is all right at  
the McCarthy home and the father will  
be able to go to work after a while.
